THETA CHI
FRATERNITY

What if a member tests positive for COVID-19?

If a member tests positive for COVID-19, he should:
1.) Notify the Chapter/Colony President
2.) Follow university and local health department guidelines for reporting positive cases.
3.) Seek medical attention and self-isolate. For more information about what to do if you become sick or when you can be around others again after you had or potentially had COVID-19, please refer to CDC guidelines:
- [What to Do If You Are Sick](#)
- [When You Can Be Around Others If You Had or Likely Had COVID-19](#)

The President should:
1.) Notify the Alumni Corporation President and/or Chapter/Colony Adviser
- If the chapter has a house, the Alumni Corporation President should coordinate a thorough disinfecting of the facility, following local and CDC guidelines.
- The Alumni Corporation President should reach out to the local health department for guidance on isolation procedures for the positive member.
2.) Notify IHQ via Rebecca Easterling, Director of Health & Safety
   Email: reasterling@thetachi.org
   Phone: 317.848.1856
3.) Notify all members that there has been a positive case within the chapter/colony.
- All members should be advised to self-monitor for symptoms including fever, dry cough, and shortness of breath. If at any time these symptoms arise in a member, he should see his medical provider or seek medical attention.

What if a member tests positive for COVID-19?

The member should...

Notify the Chapter/Colony President.

Seek medical attention and self-isolate.

For more information about what to do if you become sick or when you can be around others after you had or potentially had COVID-19, please refer to CDC guidelines click here and here.

Follow university and local health department guidelines for reporting positive cases.

The President should...

Notify the Alumni Corporation President and/or Chapter/Colony Adviser.

Notify IHQ via Rebecca Easterling, Director of Health & Safety:
